

A new approach to digital

Refreshing the parts
other learning cannot reach

Dan Hammond
LIW

Refreshing the parts ...

- Share our insights on first line leaders
- Challenge the thinking on digital learning
- Introduce a new digital innovation

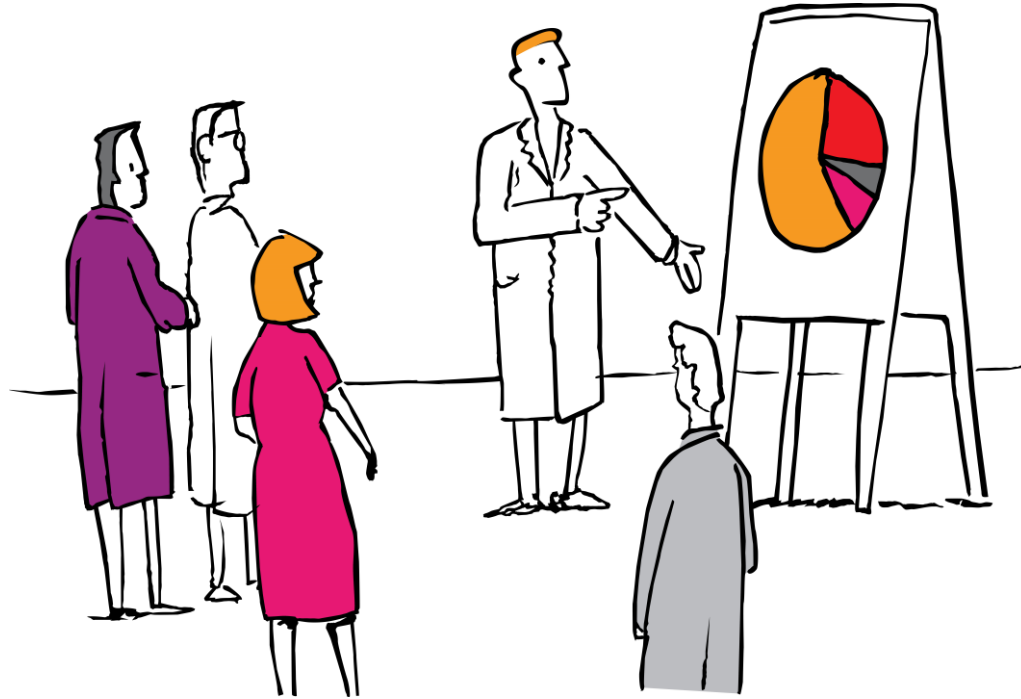

The need

Andrew's big day

How well do we develop them?

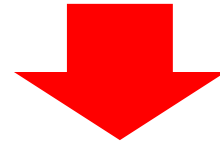

The problem

A new way?

**LEARNING
TO DO**

**DOING
TO LEARN**

Pain points

I don't know how to adapt my leadership style to different team members

There's a clique in my team

I just don't have time

It seems that I do all the work

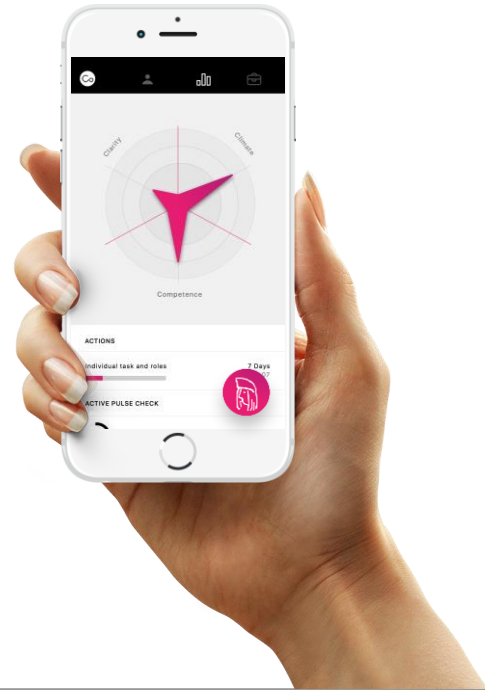

I used to be the peer of my team members, now I'm their boss

My team members don't have the same expectations as I do

There's no buy-in to the company values

There is group think in my team making change difficult

A new approach

Ola, the digital leadership guide

The future for Andrew

Thank you for coming

We'd love to hear
your thoughts
on Stand 29 over lunch

CHEERS!
